A family carer is anyone, of any age, who, unpaid and as part of their everyday life, helps an ill, frail or disabled relative or friend who could not manage without them.

Carers in Bedfordshire is a local charity. We help family carers and former carers of all ages cope with the emotional and physical stresses arising from their caring.

What we offer:

- Expert support for all caring situations
- Opportunities to meet other carers at carers groups and carers cafés
- Information on services available for you and the person you care for
- Training in topics including relaxation, managing stress, dementia, autism, computing, first aid and art and craft
- NHS carers' grants to use towards a break or training
- Welfare and benefits advice

Most of our services are free to carers

Whatever your age or caring situation, Carers in Bedfordshire are here to support you.

If you look after someone with dementia, a disability, mental health problem, or who is ill, frail, or misuses drugs or alcohol, we're here for you.

To receive a free carer's information pack and a copy of our quarterly magazine *Carers*, please complete the form overleaf and return it to us at:
