Carers in bedfordshire

TRUSTEE OPPORTUNITY

Adult social care, respite services and CQC expertise

As part of our long-term vision to increase support available to unpaid carers, we are looking for a trustee with experience of:

- Adult social care services.
- Respite care provision.
- Day services or community-based care.
- Care Quality Commission (CQC) registration, compliance or inspection.
- Developing, managing or governing regulated care services.

We currently provide a light-touch respite offer and are exploring opportunities to expand this support in the future. A trustee with practical experience in care provision and regulatory requirements would help ensure any future developments are safe, sustainable and aligned with best practice. This aligns with the organisation's wider ambition to develop enhanced respite services for carers and those they support.
